Transactions on Control of Network Systems

All authors of accepted papers need to separately upload each of the following two files (detailed instructions are provided during the final submission process after logging in at <https://css.paperplaza.net/journals/cones/scripts/login.pl>):

- 1) A pdf file of your final paper. The paper should be typeset in the standard IEEE Transactions 10-point font, double-column format. Detailed instructions are provided at <http://sites.bu.edu/tcns/information-for-authors/>. Please note that final versions should not exceed 10 pages including all figures, illustrations, and author(s) bios. In exceptional circumstances, and at the recommendation of the Associate Editor or the Senior Editor, the EiC can approve the submission of a final version that is up to 12 pages. Any paper that exceeds 10 pages is subject to overlength charges.
- 2) A zipped file containing:
 - a. The TeX (or Word) source file of your final paper. Please include all macros and bibitems in the source file.
 - b. Additional (figure) files that your TeX file requires to be properly compiled.
 - c. Biographies and corresponding author photographs should be typeset/placed in the source file using the IEEE Transactions template. Include the author photographs in the zipped file.
 - d. The overlength agreement form included as 2nd page in this document.

Make sure your **files are self-contained**, i.e., that there are no pointers to your system setup. For the most accurate and efficient processing of your manuscript when e-mailed to IEEE, TeX or LaTeX is preferred. Manuscripts developed using other software, e.g., Word, are acceptable, but the mathematics will very likely be rekeyed into a TeX format by IEEE.
