

Want to help fellow Veterans?

Looking for Desert Shield/Desert Storm Gulf War Veterans for a VA-funded research study

What is this study about?

- We are trying to find out if there are links between chemicals used in the Gulf War and Parkinson's disease.
 - We are especially interested in Veterans who used and/or handled pesticides during the Gulf War.
 - Participation can be completely REMOTE. There is also an in-person option. We will compensate for travel and lodging if you come to SF.

Why Participate?

- Contribute valuable information that may help other Veterans.
- Receive compensation for taking part in this research study.

Who can Participate?

- Operation Desert Storm/Desert Shield Veterans who were deployed to the Gulf War between 1990-1991
- Must have access to the internet and a device (e.g., computer or tablet) capable of video conferencing (e.g., Zoom)
