

HELP US LEARN HOW THE BRAIN SUPPORTS COUGHING

If you are a healthy adult or have a diagnosis of Parkinson's disease, you may be eligible to participate in a research study examining how the brain controls coughing – an important behavior that weakens with age

ARE YOU ELIGIBLE?

- Healthy adults without a neurological diagnosis
- Individuals with Parkinson's disease

PARTICIPANT BENEFITS

- Help improve assessing and treating cough disorders
- Learn more about your own cough function
- Support clinical research in Parkinson's disease and healthy aging

STUDY REQUIREMENT

- One visit (< 2 hours)
- Questionnaires about your thinking and mood
- Different cough tasks while wearing a cap that measures brain activity
