

Terrier Motorsport is Boston University's Formula Hybrid and Electric team. Every year we design, build, and compete a fully electric formula-style race car, and most of our progress comes from the support we get from people who believe in what we're building. Any donation, large or small, goes straight into the development of our car through materials, tools, testing, and everything that keeps the team moving forward. For substantial contributions, we're happy to recognize donors on our website or on the car's bodywork if requested. If you have questions, want to discuss recognition, or just want to learn more about what we're working on, you can reach out to us anytime.

How to make sure your donation reaches Terrier Motorsport

Online (GIVE.BU.EDU):

1. Click "Make a Gift."
2. Under Designation
3. Select: Campus Life → Club and Organization → Terrier Motorsport

Double-check the name. BU has many similar club names, and the wrong selection sends funds elsewhere.

Check Donations:

1. Make checks payable to: Trustees of Boston University
2. Memo line: Terrier Motorsport

This ensures BU processes the funds into our account without delay.

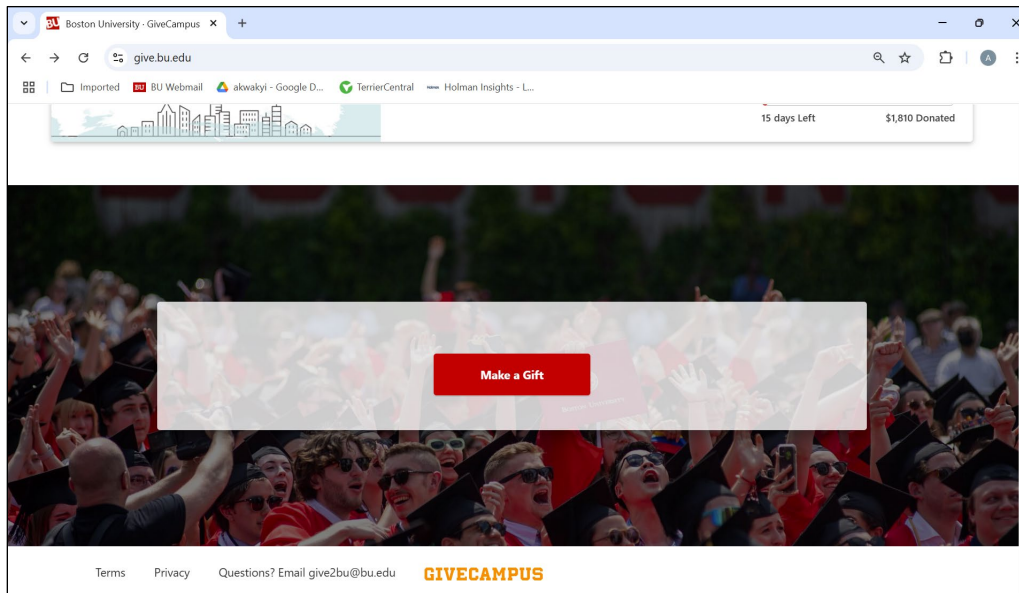

We sincerely appreciate your support for Terrier Motorsport. Your contribution helps us keep pushing, learning, and competing at a higher level each year.
