Orders of the Day.

The House Bill advancing offshore wind and clean energy (House, No. 4515), reported by the committee on Bills in the Third Reading to be correctly drawn, was read a third time.

After debate on the question on passing the bill to be engrossed, Mr. Jones of North Reading moved to amend it in section 24, in line 793, by striking out the figures: "15" and inserting in place thereof the figures: "17"; and in line 797 by inserting after the word "designees" the following: "; 2 of whom shall be the ranking minority members of the joint committee on telecommunications, utilities, and energy, or their designees". The amendments were adopted.

The same member then moved to amend the bill by striking out section 18; and the amendment was rejected.

Mr. Jones then moved to amend the bill by striking out section 22 and inserting in place thereof the following section:

"SECTION 22. Said section 83C of said chapter 169, as so amended, is hereby further amended by striking out subsection (m) and inserting in place thereof the following 4 subsections:

(m) The plan required in subclause (viii) of clause 5 of subsection (d) shall include, but shall not be limited to, a detailed description of the best management practices and any on-site or off-site mitigation the applicant shall employ, informed by the latest science at the time the plan is made, that will avoid, minimize and mitigate impacts to wildlife, including, but not limited to: threatened or endangered species such as North Atlantic right whales, coastal and marine habitats; natural resources; ecosystems; and traditional or existing water-dependent uses, including, but not limited to, commercial and recreational fishing. The plan shall include pre-construction and post-construction monitoring to understand the effects of facilities on marine and avian species.

(n) The office of coastal zone management established in section 4A of chapter 21A of the General Laws, in consultation with the environmental and fisheries working groups established in section 4A½ of said chapter 21A, shall determine how

the funds required in subclause (ix) of clause 5 of subsection (d) shall be used to advance the responsible development of the offshore wind energy industry.

(o) The winning bid shall be chosen by the selection committee, which shall consider all proposals and criteria in subsection (d) when making a final decision, as well as technical advice from the electric distribution companies. The committee shall consist of the following members: the secretary of energy and environmental affairs, or their designee, who shall be the chair; the independent evaluator required by subsection (f); the secretary of the executive office of housing and economic development. No member of the selection committee shall have a financial interest in any company or affiliated company that has submitted a bid or multiple bids. The selection committee shall give preference to proposals that demonstrate benefits from: (i) the greatest economic development and employment contributions to the commonwealth, including opportunities for diversity, equity and inclusion; (ii) the avoidance, minimization and mitigation of impacts to wildlife, natural resources, ecosystems, commercial and recreational fishing and other traditional or existing water-dependent uses; (iii) resources able to guarantee firm energy delivery; (iv) energy storage, including new and existing long-duration and multi-day energy storage systems; (v) commitments to enter into long-term contracts with businesses, nonprofit organizations, a municipality or group of municipalities with an approved municipal load aggregation plan pursuant to section 134 of chapter 164 of the General Laws or other government entities directly to purchase offshore wind energy; provided, that said contracts may be in addition to the long-term contracts entered into by distribution companies under this section; and (vi) the use of a project labor agreement with the appropriate labor organization for construction, renovation, reconstruction, alteration, installation, demolition, expansion, maintenance and repair.

(p) If this section is subjected to a legal challenge, the department of public utilities may suspend the applicability of the challenged provision during the pendency of the action until a final resolution, including any appeals, is obtained and shall issue an order and take other actions as are necessary to ensure that the provisions not subject to the challenge are implemented expeditiously to achieve the public purposes of this section.”

The amendment was rejected.

The Speaker being in the Chair,— Mr. Pease of Westfield then moved to amend the bill by striking out sections 12, 13, 14, 15 and 16.

After debate on the question on adoption of the amendments, the sense of the House was taken by yeas and nays, at the request of the same member; and on the roll call (Ms. Hogan of Stow being in the Chair) 28 members voted in the affirmative and 127 in the negative.

Amendments
rejected,—
yea and nay
No. 150.

[See [Yea and Nay No. 00150](#) in Supplement.]

Therefore the amendments were rejected.

Ms. Ferrante of Gloucester then moved to amend the bill by striking out section 1 and inserting in place thereof the following section:

“SECTION 1. Chapter 21A of the General Laws is hereby amended by inserting after section 4A the following section:

SECTION 4A½. The office of coastal zone management, in consultation with the division of marine fisheries established in section 1A of chapter 130, shall establish: (1) an environmental working group; and (2) a fisheries working group. Each working group shall be comprised of key experts and stakeholders to provide input on best practices for avoiding, minimizing and mitigating impacts to wildlife, including, but not limited to, threatened or endangered species, such as North Atlantic

right whales, coastal and marine habitats, natural resources and ecosystems; traditional or existing water-dependent uses, including, but not limited to, commercial and recreational fishing during the construction and operation of facilities; and job training for opportunities in the offshore wind industry. The environmental and fisheries working groups shall conduct an ongoing review of implemented monitoring and mitigation programs and provide feedback and recommendations on an as-needed basis, to be considered by the office, in consultation with the division of marine fisheries. Pre-construction engagement of the working groups shall correspond with project development, solicitation and permitting and a process to determine federal consistency with approved coastal management programs. The director of marine fisheries shall include in its annual report a report of the fisheries working group.”.

The amendment was adopted.

Ms. Miranda of Boston then moved to amend the bill in section 11, in lines 210 to 227, inclusive, by striking out the paragraph contained in those lines and inserting place thereof the following paragraph:

“(6) provide funds for workforce training to prepare individuals for offshore wind careers to: (i) state and municipal public higher education institutions, private higher education institutions, and vocational-technical education institutions for the adoption of basic safety training and basic technical training programs; provided, that the center shall prioritize awards to education institutions seeking accreditation in internationally recognized training standards, including, but not limited to, standards developed by the Global Wind Organisation[sic]; (ii) state and municipal public higher education institutions, private higher education institutions, and vocational-technical education institutions for the development, expansion and promotion of offshore wind professional certificate programs and courses tailored to careers in the offshore wind industry for students in associate and baccalaureate degree programs; (iii) state and municipal public higher education institutions, private higher education institutions, and vocational-technical education institutions for the sponsorship of award, scholarship and paid internship programs to support the education and training of individuals seeking careers in the offshore wind industry; provided, that the center shall prioritize the promotion of careers in the skilled trades, water transportation, operations and maintenance and other occupations that the center identifies as high priority; and (iv) regional employment boards to develop a regional strategy to support the development of the offshore wind industry and to publish their findings as an addendum to their workforce development blueprints; provided, that recipients of funds under this clause shall demonstrate a commitment to workforce training for members of socially or economically disadvantaged communities;”;

By inserting after section 11 the following section:

“SECTION 11A. Said chapter 23J is hereby further amended by striking out section 13, as inserted by section 14 of chapter 8 of the acts of 2021, and inserting in place thereof the following section:

Section 13. (a) There shall be within the center a clean energy equity workforce and market development program to provide workforce training, educational and professional development, job placement, startup opportunities and grants promoting participation in the commonwealth’s, energy efficiency, clean energy, and clean heating and cooling industries to: (i) certified minority-owned and women-owned small business enterprises; (ii) individuals residing within an environmental justice community; and (iii) current and former workers from the fossil fuel industry. The program shall: (i) identify the employment potential of the energy efficiency and clean energy industries and the skills and training needed for workers in those fields; (ii) maximize energy efficiency and clean energy employment opportunities for

certified minority-owned and women-owned small business enterprises and individuals residing within an environmental justice community; (iii) identify barriers to deployment of clean energy and energy storage resources to certified minority-owned and women-owned small business enterprises; (iv) recommend near-term deployment targets consistent with the state's clean energy and climate change requirements and awarding incentives to deploy said resources; (v) focus on the employment potential, skills and training, and employment opportunities for certified minority-owned and women-owned small business enterprises within the offshore wind industry; and (vi) make recommendations to the general court for policies to promote employment growth and access to jobs in the clean energy industry.

(b) There shall be a program coordinator to administer the program established in subsection (a). In addition to the purposes set forth in subsection (a), the program coordinator shall prepare guidance on best practices to promote diversity, equity, and inclusion opportunities in the offshore wind industry. Offshore wind developers, as defined in section 83B of chapter 169 of the acts of 2008, may consult the program coordinator in the development of diversity, equity and inclusion opportunity provisions within their proposals pursuant to subclause (xi) of clause 5 of subsection (d) of chapter 83C of said chapter 169, and the program coordinator shall provide feedback and recommendations. The program coordinator shall produce an annual report detailing: (i) the activities of the clean energy equity workforce and market development program; (ii) the progress on workforce diversity plans and a supplier diversity program plans submitted by offshore wind developers pursuant to said clause 5 of said subsection (d) of said section 83C of said chapter 169; and (iii) plans for continued programming by the center to achieve the commonwealth's diversity, equity and inclusion goals.

(c) The department of public utilities shall annually direct the electric and gas distribution companies and municipal aggregators with certified energy plans to jointly transfer funds collected pursuant to section 19 of chapter 25 to the center for the purposes of implementing the clean energy equity workforce and market development program; provided, that the electric and gas distribution companies and municipal aggregators with certified energy plans shall transfer not less than \$12,000,000 no later than December 31 each year. Such transfer shall not reduce the amount expended on low-income programs pursuant to subsection (c) of said section 19 of said chapter 25.”; and

In section 20 by striking out the paragraph contained in lines 648 to 680, inclusive, and inserting in place thereof the following paragraph:

“(d) The department of public utilities shall promulgate regulations consistent with this section. The regulations shall: (1) allow offshore wind developers of offshore wind energy generation to submit proposals for long-term contracts consistent with this section; (2) require that a proposed long-term contract executed by the distribution companies under a proposal be filed with, and approved by, the department of public utilities before becoming effective; (3) provide for an annual remuneration for the contracting distribution company up to 2.5 per cent of the annual payments under the contract; provided, that the distribution company demonstrates either: (i) that the financing cost reduction enabled by entering into the contract as compared to an uncontracted merchant project is equal to or greater than the requested remuneration rate, or (ii) that the financial obligation or risk incurred by the distribution company for entering into the long-term contract support the requested remuneration rate, such provision to be acted upon by the department of public utilities at the time of contract approval; (4) require associated transmission costs to be incorporated into a proposal; provided, that to the extent there are transmission

costs included in a bid, the department of public utilities may authorize or require the contracting parties to seek recovery of such transmission costs of the project through federal transmission rates, consistent with policies and tariffs of the Federal Energy Regulatory Commission, to the extent the department finds such recovery is in the public interest; and (5) require that proposals meet the following criteria: (i) provide enhanced electricity reliability and energy security; (ii) contribute to reducing winter electricity price spikes; (iii) are cost effective to electric ratepayers in the commonwealth over the term of the contract, taking into consideration potential economic and environmental benefits to the ratepayers; (iv) avoid line loss and mitigate transmission costs to the extent possible and ensure that transmission cost overruns, if any, are not borne by ratepayers; (v) provide optimal interconnection locations; (vi) adequately demonstrate project viability in a commercially reasonable timeframe; (vii) allow offshore wind energy generation resources to be paired with energy storage systems, including new and existing long-duration and multi-day energy storage systems; (viii) include an initial environmental and fisheries mitigation plan for the construction and operation of such offshore wind facilities; (ix) mitigate impacts to the marine environment by providing financial and technical assistance to support robust monitoring of wildlife and habitat through a contribution to regional research efforts; (x) include benefits to environmental justice populations and low-income ratepayers in the commonwealth; (xi) include opportunities for diversity, equity and inclusion, including, at a minimum, a workforce diversity plan and a supplier diversity program plan; and (xii) where feasible, create and foster economic development and quality, high-paying jobs in the commonwealth.”.

After remarks the amendments were adopted.

Mr. Kearney of Scituate then moved to amend the bill in section 6, in line 68, by striking out the figures: “14” and inserting in place thereof the figures: “15”; and in line 76 by inserting after the word “representative” the following: “and 1 of whom shall be the president of a Massachusetts state university or college”. After remarks the amendment was adopted.

Mr. Vitolo of Brookline then moved to amend the bill in section 11, in lines 233, 234 and 235 by striking out the paragraph contained in those lines and inserting place thereof the following paragraph:

“(10) authorize, by a vote of the board, and operate a program to secure, leverage, or otherwise guarantee long-term purchases of energy and renewable energy certificates from offshore wind developers for direct sale, or resale by the center, to a municipality or group of municipalities with an approved municipal load aggregation plan pursuant to section 134 of chapter 164, aggregations pursuant to section 137 of said chapter 164 and other private aggregations with plans approved by the center”; and

In section 22, in line 748, by inserting after the word “directly” the following: “or through an aggregation pursuant to section 137 of said chapter 164”.

After remarks the amendments were adopted.

Ms. Robinson of Framingham then moved to amend the bill by striking out section 23 and inserting in place thereof the following section:

“SECTION 23. (a) Notwithstanding any general or special law to the contrary, the department of energy resources shall, not later than March 1, 2023, competitively solicit and procure proposals for offshore wind energy transmission sufficient to deliver energy generation procured pursuant to subsection (b) of section 83C of chapter 169 of the acts of 2008 from designated wind energy areas for which a federal lease was issued on or after January 1, 2012, that shall be developed independent of such offshore wind energy generation; provided, that offshore wind developers, as

defined in section 83B of said chapter 169 shall be permitted to submit proposals pursuant to this section; provided further, that such transmission service shall be made available for use by more than 1 wind energy generation project; and provided further, that the department shall coordinate with the department of public utilities, electric distribution companies, other New England states or entities designated by those states and ISO New England, Inc. or a successor organization, in the solicitation and procurement of proposals for offshore wind energy transmission. The department shall be permitted to select 1 proposal, multiple proposals, or no proposals; provided, however, that the department may satisfy the requirement regarding proposal selection through federal funding in the form of a match, a grant, a loan, or through ownership and operation by the United States government that provides a comparable level of investment as would have otherwise been provided if the department had selected a single proposal or multiple proposals.

(b) In conducting the procurement for offshore wind energy transmission, the department of energy resources shall take into consideration the total amount of transmission needed to achieve the commonwealth's offshore wind and decarbonization goals as well as demonstrable benefits to the consumer and environment and in terms of electric system reliability and avoided upgrade costs to the existing transmission grid. The department shall consider proposals that include, but shall not be limited to, upgrading the existing grid, extending the grid closer to offshore wind locations, determining optimal landfall approaches or interconnecting between offshore substations. If federal grants or other federal funding for transmission and distribution become available, the department may modify a procurement, prior to selecting a proposal, in order to satisfy federal eligibility criteria.

(c) Not later than September 31, 2023, the department of energy resources shall submit a report to the clerks of the house of representatives and the senate and the chairs of the joint committee on telecommunications, utilities and energy, that: (1) outlines the design and conduct of the solicitation and procurement process; (2) identifies and recommends any improvements to the solicitation and procurement process; and (3) provides, in the event that the department does not choose a proposal, a comprehensive explanation of their decision, including the extent to which the department's consideration of factors in subsection (b) played a role in said decision."

The amendment was adopted.

Mr. Michlewitz of Boston then moved to amend the bill in section 17, in lines 441 to 444, inclusive, by striking out the paragraph contained in those lines and inserting in place thereof the following paragraph:

"'Distributed energy resources', small-scale power generation or storage technology including, but not limited to, resources that are in front of and behind the customer meter, electric storage resources, intermittent generation, distributed generation, demand response, energy efficiency, thermal storage, and electric vehicles and their supply equipment, not greater than 10 megawatts, that may provide an alternative to, or an enhancement of, the traditional electric power system and shall be located on an electric utility's distribution system, a subsystem of the utility's distribution system or behind a customer meter.'";

In section 18, in line 492, by striking out the figures: "90" and inserting in place thereof the figures: "120"; and in line 494 by striking out the figures: "45" and inserting in place thereof the following figures: "70"; and

In section 22, in line 733, by striking out the words “the secretary of energy and environmental affairs” and inserting in place thereof the words “the commissioner of energy resources”.

The amendments were adopted.

On the question on passing the bill, as amended, to be engrossed, the sense of the House was taken by yeas and nays at the request of Mr. Roy of Franklin; and on the roll call (the Speaker being in the Chair) 144 members voted in the affirmative and 12 in the negative.
