**Subject:** FW: Numbers on the transgender community in MA

Hi All:

I just wanted to pass along information that we just received surrounding numbers of transgender individuals in MA. This is a question that came up during our meeting a few weeks ago and it may have also come up in conversations you have had with your colleagues. Based on the CDC's MA Behavioral Risk Factor Surveillance System, they estimate that .5% of the MA population is trans which is 33,000 people.

Please let us know if you have any other questions about this.

Thanks.
