

Chins:  
4/21/06 – Status

Things to fix

**1. Crisis intervention:**

Respite placement  
Court clinic available at all CHINS sessions  
DSS liason in every court

**2. Pre Application diversion**

- Do something in the schools – mandatory- but not criminal Justice Roundtable
- Create a place to go for help  
Community center or parent center at schools or at local health care facility (Family Network model)  
Allow – require? – PO's to refer to this

Alternative education for kids suspended

**3. Court Process**

- No Jury trial (why?)
- Reduce burden of proof (to what?)
- Create enforcement options
- Consider representation for parents
- Get chins out of CORI
- 

**4. Services**

- The court can force provision of services– or a least pressure more than anyone else –

**To Learn:**

- Where/when are CHINS sessions – lets get a chart/calendar
- Same for Court Clinics:  
Is court clinic available in same physical location as a chins hearing/application/

**Administration:**

Who are the members of the subcommittees

Can we have a blog?

Updated meeting calendar?
