

Data Collection Subcommittee

The goal of this group is to advance the use of empirical data to inform planning and reform.

The Data Subcommittee will accomplish this goal in two ways:

- (1) Using currently collected data to describe the existing CHINS population and system. This will involve coordinated data collection and analysis.
- (2) Crafting recommendations on future data collection, storage, and use. This will involve:
 - Surveying the current collection capacity of relevant state, local, and private agencies;
 - Defining data needs for future planning and monitoring; and
 - Articulating steps required for establishing effective, thorough data collection, for use in status offender administration and planning.

Proposed Members:

Senator Karen Spilka
Rosalind Walter - DSS
Ruben Ferrira - DSS
Denise (see Robert K.) - DMH
Robert Kinscherff - DMH
Glen Daly - EOHHS
Paul Andrews - MA Superintendents Assoc.
Jim Morton - Juvenile Courts
Pat Walsh - Probation
Carmen Cicchetti - Probation
Robert Tansi - DYS
