Disable/Enable Visual Editor and Auto-Formatting ▲

By default, WordPress automatically adds HTML code to your page whenever you press the Return (or Enter) key or whenever you insert a line break (you press Shift Return, etc.). This auto-formatting can cause layout problems, especially when you are creating forms. To disable auto-formatting, just check the box below and Save. This disables (for this page only) the auto-formatting feature in

for this page.

To re-enable auto-formatting and the Visual Editor on this page, simply uncheck the box and Save.
