

Subcommittee Reports OVERVIEW

- We have received reports from 4 out of the 5 subcommittees
- Court Process never submitted a report. MAJP & EGB have spoken to both Pat Cone and Jim Morton regarding this. Currently, they feel that their subcommittee should have been incorporated into the Statutes Research subcommittee and they are now waiting to see the legislation that is presented from the Executive Steering Committee to make comments.
- Since there has been no movement on this subcommittee wondering if you (KES) should touch base with Judge Grace about the process and get her thoughts.
- All of the Subcommittee reports are enclosed along with their information to back their recommendations.

Executive Steering Committee OVERVIEW

- CPCS has been lobbying to get Mike Dsida on the Exec. Committee. The 1st request was from Susan Dillard to Erin. After discussions with Jill, we thought it was best not to allow this. This committee was meant to be small, and there is an advocate (PAL) currently serving. Also, the committee has already met numerous times and they understand their charge and direction.
 - Since that time Josh Dolan has contacted Erin about this request and they feel it is necessary to have Mike Dsida on this committee. **We need to know your feelings on the matter, prior to Tuesday meeting.**
- The meeting on Tuesday is to review the Subcommittee recommendations and determine an outline for the proposed legislation.
 - MAJP & EGB will draft an outline of the legislation after this meeting to be distributed to the Steering Committee for their input.
