
Assignment 1

Due Monday Sept. 18 6 p.m. or before either handed to Prof. Kahn during class or put under Prof. Kahn's door (518C) or in Prof. Kahn's mailbox (room 531, see syllabus for map)

(Worth ½ point if complete and handed in on time; late assignments lose 5% per day.)

1. First Choice

- a) What specific question or questions will your project address?

- b) What is the data set you plan to use?

- c) You are going to measure a relationship between two variables. What are these 2 variables? (Note: a variable can be categorical, such as gender.)

- d) What company, governmental body or other organization would be interested in knowing the answer to this question?

2. Second Choice

- a) What specific question or questions will your project address?

- b) What is the data set you plan to use?

- c) You are going to measure a relationship between two variables. What are these 2 variables? (Note: a variable can be categorical, such as gender.)

- d) What company, governmental body or other organization would be interested in knowing the answer to this question?
