Introduction

This guide is intended for Guest Users. If you are a student and want more information about how to use the Manage Guests page in MyBU Student check out this [Manage Guests knowledge article](#).

BU students can grant guest access to family members or other third parties to view certain aspects of their student information in MyBU Student.

Once a student has added a Guest User, the guest must then set up their own unique user account in MyBU Student. Depending on the permissions granted by the student, Guest Users can view certain academic and financial details of the student, as well as take certain actions, such as paying bills or downloading a copy of the student’s unofficial transcript.

The ability to manage guest users in MyBU Student is in accordance with Boston University’s obligations under the federal Family Educational Rights and Privacy Act (FERPA).

The University policy on the release of student information can be found here:
<https://www.bu.edu/reg/academics/ferpa/release/>

The student has full control over the access granted to their Guest Users.
 Students may revoke some or all of the Guest User’s permissions at any time.

Accessing Guest User Account

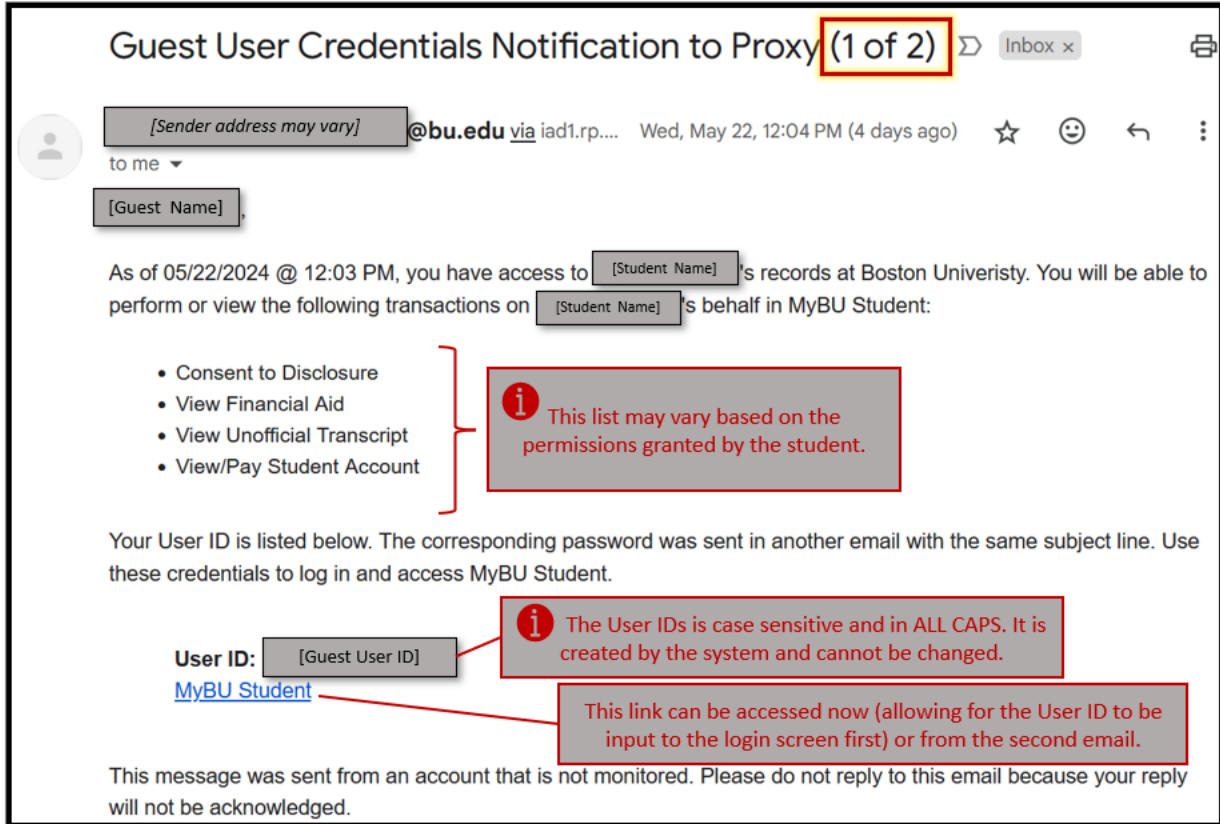

Setting up a Guest User account can be more complicated than setting up a typical user account for most websites. It is recommended to pay close attention to these steps to ensure successful login.

1. The first and most important step to access a Guest User account is for the student to add the guest (name and email address) and select their desired permissions using the Manage Guests page in MyBU Student. **It is not possible for a Guest User to create an account unless the student initiates it.**
2. Once the student has initiated guest access, the Guest User will receive two (2) emails:
 - a. Email 1 of 2: contains User ID
 - b. Email 2 of 2: contains secure link for user to view and copy their passwordEmails will come from a do-not-reply "@bu.edu" email address, with subject lines that look something like the below screenshots:

 If one or more of the emails don't arrive, be sure to check junk/spam folders, and double check with the student that they entered the correct email address.

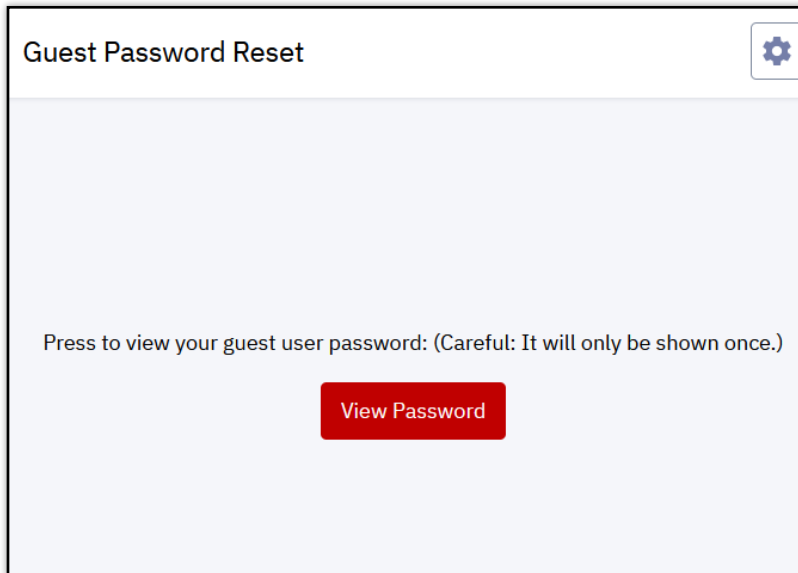

3. Open the first email to access the User ID. This email also contains a link to log in to MyBU Student which can be opened from this email, or from the second email.

4. Open the second email to retrieve the **account password**.

- a. In the body of the second email, click the “Link to Retrieve Password”. This should open in a new browser window/tab labeled “Guest Password Reset”.
 - i. *Note: The screen will have the “Password Reset” header even if the password is being accessed for the first time.*

- b. Click “View Password.”

i As noted on the page, the password can only be displayed once. If the browser window is closed or times out, the password cannot be viewed again. Therefore it is recommended to copy and/or write down the password immediately.

- c. Click “Copy” to copy the password to the device’s clipboard.
 - i. It is recommended to keep this page open until login is successful—in case there is a need to copy the password again.
5. Open the link for MyBU Student in either email to access the login page. It should open in a new browser tab.
 - a. Guest Users should always use the link in the email to access MyBU Student as it is specific to guest users.

Troubleshooting & Password Help

As of July 2024, the ability for Guest Users to reset their own passwords (and to set up password recovery questions) is forthcoming. In the meanwhile, if a Guest User loses or forgets their password, the student who granted their Guest access can use the Manage Guests page in MyBU Student to initiate a password reset email to Guest User.

It is also important to remember that students can change or revoke Guest User access at any time. When changes are made to their access, Guest Users should receive an automatically generated email notification, but these emails may be directed to spam/junk folders. If a Guest User is experiencing any unexpected access issues, it's a good idea to check in with the student first.

FREQUENTLY ASKED QUESTIONS FOR GUEST USERS

- **Q: Can I change my User ID?**
 - **A:** No. Guest User IDs are auto-generated by the system and emailed to the Guest User after the students initiates access. Guest User IDs cannot be changed

by the Guest User or the student. Keep in mind that Guest User IDs are case sensitive.

- **Q: Can I change my password to something easier to remember?**

- **Q: I'm not seeing certain information in MyBU Student that I believe I should see. What should I do?**

- **A:** The first recommendation is to communicate with the student who granted your access to make sure you are on the same page about which permissions have been granted.

Note that as of July 2024, the ability to grant permission to view Unofficial Transcript may not be available.

If you still believe you are experiencing an error with guest access in MyBU Student, contact the BU IT Help Center at ithelp@bu.edu or 617-353-HELP (4357).

- **Q: I'm a former Sharelink user. Will I automatically receive the same access as a Guest User in MyBU Student?**
 - **A:** No. For the most part, students will need to newly establish Guest Access in MyBU Student, even if they previously granted Sharelink access.
- **Q: Can my Guest User account be used to access information for multiple students?**
 - **A:** No. A separate Guest User account must be used for each student.
- **Q: Can I submit financial aid forms such as a Parent PLUS Loan or Foreign Income Verification form in my guest account?**
