

Statistical Genetics Seminar Series (<http://sites.bu.edu/statgen/>)

Room: Crosstown 305 unless change is announced

Time: 9:30 ~11:00 AM unless change is announced

Date	Topic	Presenter
9/4/2020	Planning/Brainstorming	All
9/18/2020	An Introduction to VA Million Veteran Program (MVP) Research	Jenny Huffman
10/2/2020	An efficient and accurate frailty model approach for genome-wide survival association analysis controlling for population structure and relatedness in large-scale biobanks	Wei Zhou
10/16/2020	ASHG practice talks/posters	--
11/6/2020	CANCELLED - PQG Conference	--
11/20/2020	CANCELLED - SPH retreat for faculty and staff	--
12/4/2020	Polygenic scores for type 2 diabetes in diverse populations	Josep Maria Mercader
12/18/2020	Multi-Omics Data Integration with Sparse Multiple Canonical Correlation Analysis in the Multi-Ethnic Study of Atherosclerosis (MESA) Study	Min-Zhi Jiang
1/1/2021	CANCELLED - New Years' Day	--
1/15/2021	CANCELLED - Intersession	--
2/5/2021	Tackling disparities in genetics research: Building the research and researchers together	Lori Chibnik
2/19/2021	TBD	Audrey Hendricks
3/5/2021	Application of statistical genetics in drug discovery and development	Audrey Chu
3/19/2021	Lessons learned from studying the genetics of lipids	Gina Peloso and Yuxuan Wang
4/2/2021	CANCELLED - Cupples award day before	--
4/16/2021	TBD	Sam Lent
5/7/2021	CANCELLED - CHARGE meeting	--
5/21/2021	SSB and branch-chain amino acids	Biqi Wang
