Social Justice Standard(s)	I have a positive view of myself, including an awareness of and comfort with my membership in multiple groups in society.	I relate to and build connections with other people by showing them empathy, respect and understanding, regardless of our similarities or differences.	I interact comfortably and respectfully with all people, whether they are similar to or different from me.	I recognize traits of the dominant culture, my home culture and other cultures, and I am conscious of how I express my identity as I move between those spaces.	I respectfully express curiosity about the history and lived experiences of others and exchange ideas and beliefs in an open-minded way.	I understand that diversity includes the impact of unequal power relations on the development of group identities and cultures	I can recognize, describe and distinguish unfairness and injustice at different levels of society.	I plan to carry out collective action against exclusion, prejudice and discrimination, and we will be thoughtful and creative in our actions in order to achieve our goals.
Main Essential Question	Who am I and where am I going?	How do we form relationships and interact w/ others?	How do we experience other cultures and realities?	How does stepping out of our community shapes us?	What is the impact of innovation on peoples and cultures?	How is technology changing us and the world?	Is innovation always positive?	Who am I after this course and how I can apply what I've learnt?
